Find the Possessive Nouns

Instructions: Circle all the possessive nouns in the narrative passages below.

My dog's howl is very loud. Every time he howls, it is an eerie sound. Sometimes, he jumps on my mom's couch. Sometimes, he will lay on my dad's favorite chair. When I took him for a walk, he ate my neighbor's food, then he ate the girl's food. I did not know how to control him. When Dad saw him drinking the cat's water outside, he yelled for him to stop and get away from there.

My dog got scared and began to run very fast. He ran around the block and across my friend's lawn. He leapt over the fence at Ms. Williams' house. He crept through the alley behind Mr. Donald's house too. When I called out to him, he just continued to run. He ran faster and faster until he came to a red car. It was Mrs. Jarrell's car. She was kind enough to stop and get out of her car. She went over to my dog and walked him back to me.
